ADJUSTABLE SPEED DRIVES

AS1 Outdoor Package

- Rugged, Turnkey Package for Severe Environments
- NEMA 3R/Type 12
- Optional Three-Contactor Bypass
- Optional Line Reactor

AS1 Outdoor Package

The AS1 Outdoor Package builds on Toshiba's history of supplying powerful, reliable, and versatile drives. This new offering combines Toshiba's high-performing AS1 drive with a unique outdoor enclosure to allow it to withstand the harshest weather conditions and perform effectively from -10°C (14°F) to 50°C (122°F) – without derating. The AS1 Outdoor Package requires no air conditioning, and there is no exchange of inside air with outside air, which helps to keep out potentially harmful contaminants and eliminates filter maintenance. This unique design allows for a smaller footprint with convenient lifting and mounting options for ease of installation.

- Motor Circuit Protector (MCP)
- Heat-Sink Out-the-Back Mounting
- Optional Two- or Three-Contactor Bypass
- Optional Line Reactor
- Communication Options Include: DeviceNet, Profibus, Ethernet & Many Others

** Additional Options Available*

Dimensions				
230 V	460 V	Height	Width	Depth
